

Emergency Medical Pack

The Emergency Medical Pack will carry a "C" sized oxygen bottle with lateral mount regulator, airway equipment, I.V. fluids, and drugs necessary in the early care of critically ill or injured patients.

Emergency Medical Pack Features:

- 3 exterior removable insert pouches
- One Large exterior pocket for additional equipment and supplies

All removable cases and pouches are securely fastened in the pack to avoid loss of equipment and supplies, and are easily removed when needed.

Dimensions:
Main compartment: 15" x 14" x 7"
Extended pockets: 17" x 18" x 10"

Thomas EMP Pack Contains the following Life Support components:

1. Airway Section

The removable airway section is easily removed from the EMP for rapid transport to patient site. Two compartments separate adult airway equipment (designed to accommodate an adult airway mask and bag, and airways) from the pediatric airway equipment (designed to accommodate a pediatric mask and bag and infant sucker).

The top support pouch on the interior lid of the pack is designed to hold the Thomas Intubation pouch. The Intubation pouch is designed to securely carry all necessary intubation equipment to perform neonate, child or adult intubation, including the laryngoscope handle, blades, extra bulbs, batteries, jelly, and a syringe. You can also attach your most commonly used laryngoscope blade to the laryngoscope handle in the ready to position.

2. I.V. Section

Bleeding Section: Easily removed IV section for rapid transport to patient site. Front compartment is capable of carrying BP-cuffs and stethoscope. Back compartment is designed to accommodate I.V. fluids and tubing. Catheters, gauze and tape easily fit into any of the clear vinyl removable support pockets located on the side of the pack.

3. Oxygen Section

This removable pouch will carry a "C" sized oxygen tank with lateral mounted oxygen regulator. Removable O2 pack can be carried or by handle or single shoulder strap. Exterior pocket with webbing tape secures the O2-key.

4. EMP Removable Pouches

Support sections consist of extremely versatile removable support pockets and pouches for carrying a wide variety of equipment and supplies. Clear pouches allow for rapid identification of supplies and quick re-stocking.
